

Trade-in specials cut up to 30% off the cost of new products

Save when you trade eligible models toward new products. Through 31 March 2012, save up to 25% on the new N9038A MXE EMI test receiver. Through 30 June 2011, also save up to 30% on the N5242/4/5/7A PNA-X microwave network analyzer with integrated measurement capabilities.

Until 30 September 2011, get a substantial credit when you trade a PSA spectrum analyzer for the high-performance PXA signal analyzer.
